# Anti Human Beta Defensin-1 (BD-1) Monoclonal Antibody 

| Product Information |  |
| :---: | :---: |
| Code | $\begin{aligned} & \text { A00701-14- } \\ & 100 \end{aligned}$ |
| Name | Human BD1 <br> MAb |
| Clone No. | A11 |
| Lot No. |  |
| Size | $100 \mu \mathrm{~g}$ |
| Species | Human |
| Host | Mouse |
| Immunogen | Human BD1 rec |
| Ab Type | IgG |
| Purification | Protein G |
| Formulation | Lyophilized Form without preservatives |
| Carry | Free |
| Storage | $-20^{\circ} \mathrm{C}$ |
| Specificity | Human, |
| Reconstitution | N/A |
| Application | WB |
|  | ELISA |

## Preparation

This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified recombinant human BD1. That antibody was purified by Protein G affinity.

## Formulation

$100 \mu \mathrm{~g}$ of Anti human Beta Defensin-1 Monoclonal Antibody in $100 \mu \mathrm{l}$ of PBS lyophilized form.

## Reconstitution and Storage

Add $100 \mu$ l deionized water to the vial to prepare a antibody stocking solution ( $1000 \mu \mathrm{~g} / \mathrm{ml}$ ). Stores it at $4^{\circ} \mathrm{C}$ for a few days. For long term storage, the reconstituted antibody can also be aliquotted ( by $10 \mu \mathrm{~L}$ per vial) and stored frozen at $-20^{\circ} \mathrm{C}$ to $-70^{\circ} \mathrm{C}$ in a manual defrost freezer for six months without detectable loss of activity. Avoid repeated freeze-thaw cycles.

## Specificity

This antibody has been selected for its ability to recognize human BD1 on indirect ELISA and Western blot.

## Applications

Indirect ELISA - This antibody can be used at $0.125 \mu \mathrm{~g} / \mathrm{ml}$ to detect human BD1 on indirectly ELISA.

Western Blot- That Antibody can be used at $2-4 \mu \mathrm{~g} / \mathrm{ml}$ with the appropriate secondary antibody to detect BD1 in the homogenates of human intestine tissues under reduce condition.

ELISA - This antibody can be used as capture antibody at $2-4 \mu \mathrm{~g} / \mathrm{ml}$ combines with a detection antibody Anti human BD1 Monoclonal Antibody biotinylated (A00701-15-25B) to detect human BD1 on ELISA.

Optimal dilutions should be determined by each laboratory for each application.

THIS PRODUCT IS FOR RESEARCH ONLY. NOT FOR USE IN HUMANS.
