

## Anti Human Fatty Acid Binding Protein-7 IgG

### Product Information

Code	A00191-01-100
Name	Human FABP-7 PAb
Clone No.	N/A
Lot No.	
Size	100 µg
Species	Human
Host	Rabbit
Immunogen	Human FABP-7, rec.
Ab Type	IgG
Purification	Protein A
Formulation	Lyophilized Form without preservatives
Carry	Free
Storage	-20 ° C
Specificity	Human, Rat
Reconstitution	N/A
Application	IHC ELISA

### Preparation

This antibody was produced from a rabbit immunized with purified, E. coli-derived, recombinant human FABP-7. That antibody was purified by Protein A affinity.

### Formulation

100 µg of Rabbit anti FABP-7 (Human) IgG in 100 µl of PBS lyophilized form.

### Reconstitution and Storage

Add 100 µl deionized water to the vial to prepare a antibody stocking solution (100µg/ml). Stores it at 4°C for a few days. For long term storage, the reconstituted antibody can also be aliquotted ( by 10 uL per vial) and stored frozen at -20° C to -70° C in a **manual defrost freezer** for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

### Specificity

This antibody has been selected for its ability to recognize human FABP-7 on indirect ELISA.

### Applications

**Indirect ELISA** - This antibody can be used at 0.2 µg/ml to detect human FABP-7 on indirectly ELISA.

**Immunohistochemistry**- That Antibody can be used at 1:200 (5 µg/ml) with the appropriate secondary antibody to detect FABP-7 in human and rat brain tissues (ABC).

*Optimal dilutions should be determined by each laboratory for each application.*
