

AVISCERA BIOSCIENCE

Anti Human Glia Maturation Factor- γ (GMF- γ) Monoclonal Antibody

Product Information

Code	A00676-03-100
Name	Anti GMF γ (H) MAB
Clone No.	1B6C6D2F3
Lot No.	
Size	100 μ g
Species	Human
Host	Mouse
Immunogen	Human GMF- γ , rec.
Ab Type	IgG
Purification	Protein G
Formulation	Lyophilized Form without preservatives
Carry	Free
Storage	-20 ° C
Specificity	Human
Reconstitution	100 μ l
Application	ELISA , WB

ORDER INFORMATION

AVISCERA BIOSCIENCE, Inc

2348 Walsh Ave, Suite C,
Santa Clara, CA 95051

Preparation

This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, E. coli-derived, recombinant human GMF- γ . That antibody was purified by Protein G affinity.

Formulation

100 μ g of Anti Human GMF- γ monoclonal antibody in 100 μ l of PBS lyophilized form.

Reconstitution and Storage

Add 100 μ l deionized water to the vial to prepare a antibody stocking solution (100 μ g/ml). Stores it at 4°C for a few days. For long term storage, the reconstituted antibody can also be aliquotted (by 10 μ l per vial) and stored frozen at -20° C to -70° C **in a manual defrost freezer** for 12 months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity

This antibody has been selected for its ability to recognize recombinant human GMF- γ in indirect ELISA and western blot.

Applications

Indirect ELISA - This antibody can be used at 1:10000 (0.1 μ g/ml) to detect human GMF- γ on indirectly ELISA.

Western Blot- This antibody can be used at 1-2 μ g/ml to detect GMF- γ on rat brain tissues homogenates under reduce condition.

Optimal dilutions should be determined by each laboratory for each application.

THIS PRODUCT IS FOR RESEARCH ONLY. NOT FOR USE IN HUMANS.
