

# AVISCERA BIOSCIENCE

## Rabbit Anti-Human Soluble Interleukin-22 Binding Protein (IL-22BP) IgG

### Product Information

Code	A00527-01-100
Name	Human IL-22BP IgG
Clone No.	N/A
Lot No.	
Size	100 µg
Species	Human
Host	Rabbit
Immunogen	Human IL-22BP rec.
Ab Type	IgG
Purification	Protein A
Formulation	lyophilized Form without preservatives free
Carry	
Storage	-20 ° C
Specificity	Human
Reconstitution	PBS, 100 µl
Application	ELISA  IHC

### Preparation

This antibody was produced from a rabbit immunized with purified recombinant human IL-22BP, Isoform 2. That IgG was purified by Protein A affinity.

### Formulation

100 µg of purified Anti Human Soluble IL-22BP IgG in PBS without preservatives was lyophilized.

### Reconstitution

Add 100 µl of PBS to the vial to prepare antibody stock solution at 100 µg /100 µl. Store reconstituted antibody at 2 to 8 ° C for up a few weeks. This antibody can also be aliquotted ( by 10 µL per vial) and stored frozen at -20° C to -70° C in a **manual defrost freezer** for up six months without detectable loss of activity.

### Storage

Lyophilized antibody can be stored at 2 ~8 ° C for a few weeks or at -20 ° C for six months. **Avoid repeated freeze-thaw cycles.**

### Specificity

This antibody has been selected for its ability to recognize human IL-22BP (Soluble) in direct ELISAs as well as immunohistochemistry.

### Applications

**Direct ELISA** - This antibody can be used at 1: 8000 (0.125 µg/ml) with the appropriate secondary reagents to detect human Soluble IL-22BP.

**Immunohistochemistry**-This Antibody can be used at 2-4 µg /mL with the appropriate secondary antibody to detect IL-22BP in human adipose and liver tissues (ABC).

*Optimal dilutions should be determined by each laboratory for each application.*
