

## Rabbit Anti-Human Soluble Neuropilin 1 IgG Biotinylated

### Product Information

Code	A00270-02-50B
Name	Anti Human Soluble Neuropilin 1 IgG Biotinylated
Clone No.	N/A
Lot No.	
Size	50 µg
Species	Human
Host	Rabbit
Immunogen	Neuropilin 1, Isoform 2 (Human) rec.
Ab Type	IgG
Purification	Protein A
Formulation	lyophilized Form without preservatives free
Carry	
Storage	-20 ° C
Specificity	Human
Reconstitution	100 µl
Application	IHC ELISA

### Preparation

This antibody was produced from a rabbit immunized with purified recombinant Human Soluble Neuropilin 1, isoform 2. That IgG was purified by Protein A affinity and conjugated with water soluble biotin.

### Formulation

Each vial contains 50 µg IgG in 100 µl of PBS contains 0.2% BSA without preservatives was lyophilized.

### Reconstitution and Storage

Add 100 µl of deionized water to the vial to prepare antibody stock solution 500 µg/ml. Store reconstituted antibody at 2 to 8 ° C for up a few weeks. This antibody can also be aliquotted ( by 10 µL per vial) and stored frozen at -20° C to -70° C in a **manual defrost freezer** for up six months without detectable loss of activity.

### Specificity

This antibody has been selected for its ability to recognize Human Soluble Neuropilin 1 isoform 2 on indirectly ELISA .

### Applications

**Immunohistochemistry** -That Antibody can be used at 2-4 µg /mL with the appropriate secondary antibody to detect soluble Neuropilin 1 in formalin fixed, paraffin-embedded human heart and adipose tissues (ABC).

**Indirect ELISA** - This antibody can be used at 1: 1000 (0.5 µg/ml) with the appropriate secondary reagents to detect recombinant human soluble Neuropilin 1.

*Optimal dilutions should be determined by each laboratory for each application.*
