

AVISCERA BIOSCIENCE

Anti Human Periostin/OSF-2 Monoclonal IgG

Product Information

Code	A00072-02-100
Name	Human Periostin MAB
Clone No.	2A7B4-3
Lot No.	
Size	100 µg
Species	Human
Host	Mouse
Immunogen	Human Periostin, rec.
Ab Type	IgG
Purification	sequential precipitation Lyophilized
Formulation	Form without preservatives
Carry	Free
Storage	-20 ° C
Specificity	Human
Reconstitution	100 µl
Application	ELISA

Preparation

This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, E. coli-derived, recombinant human Periostin. That antibody was purified by sequential precipitation caprylic acid and ammonium sulphate.

Formulation

100 µg of mouse IgG in 100 µl of PBS lyophilized form.

Reconstitution and Storage

Add 100 µl deionized water to the vial to prepare a antibody stocking solution (100µg/ml). Stores it at 4°C for a few days. For long term storage, the reconstituted antibody can also be aliquotted (by 10 µL per vial) and stored frozen at -20° C to -70° C **in a manual defrost freezer** for 12 months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity

This antibody has been selected for its ability to recognize recombinant human Periostin in indirect ELISAs.

Applications

Indirect ELISA - This antibody can be used at 1:50000 (20 ng/ml) to detect human Periostin on indirectly ELISA.

Optimal dilutions should be determined by each laboratory for each application.
